## What is NEW APIC?

The Association for Professionals in Infection Control and Epidemiology is a national organization with local chapters. The Northeast Wisconsin chapter (NEW APIC) is comprised of 75 professionals currently involved in the practice of infection control in a variety of settings.

This includes acute care, long term care, clinics, public health, CBRF's, adult daycare, occupational health, homecare/hospice, correctional facilities and laboratories.

NEW APIC's geographic location from the shore of Lake Michigan, to the top of Wisconsin to Fond du Lac and Sheboygan County borders and west to the middle of the state.

## APIC's Mission

APIC'S mission is to improve health and patient safety by reducing risks of infection and other adverse outcomes. The Association's more than 11,000 members have primary responsibilities for infection prevention, control and hospital epidemiology in healthcare settings around the globe, and include nurses, epidemiologists, physicians, microbiologists, clinical pathologists, laboratory technologists, and public health. APIC advances its mission through education, research, collaboration, public policy, practice guidance and credentialing.

Connect with nearly 12,000 members from worldwide to share the art and the science of infection prevention and control through networking and mentoring

## Local Speakers & Seminars

NEW APIC continues to improve their chapters knowledge of infection control. Each year meetings are based around the members needs. NEW APIC invites members and nonmembers to join us in our meetings and seminars. 2008's education opportunities included Respiratory Protection, MRSA and Infection Control in the Long Term Care Setting.

As a service to our community, members are available to the speak and provide information on topics related to infection control. Topics include: MRSA education, OSHA health regulations, Infection control in daycares, public and private education for emergency preparedness and infection control information for schools, public servants and community groups.

Annually, the Wisconsin Chapters of APIC come together to learn, grow and network with other infection control preventionists at the State APIC Conference. This conference is held the first Thursday and Friday in May in Pewaukee, Wisconsin.
